Projects

Carin | github.com/a-emery/final-project
Web application designed to search for mountain biking trails and provide current information about each trail

- Integrates Backbone Models and Collections with React
- Pulls backend data from two different API's and Parse
- Utilizes open source code such as Bootstrap and React-Google-Maps

Surf & Paddle | github.com/a-emery/1.4-pixel-perfect
Pixel perfect recreation (except font) of a pdf image

- Responsive design
- Purely HTML and CSS

Jakes on a Plane | a-emery.github.io/5.4-turn-based-game
Turn based game created with JavaScript and jQuery

- Collaboratively produced using Git and GitHub
- Extensive use of prototypes and constructors

Job Experience

Jonesville Middle School | August 2013 - June 2015
